

I do not want the FCC to implement any proposal that would lessen Indiana's Telephone Privacy law protections. These protections have improved my time at home. I no longer receive any unwanted solicitation phone calls. Prior to my name being placed on the Indiana "no call" list I routinely received 6 or 7 calls per evening, sometimes from the same solicitor more than once in the same night. This does not include the number that called during the day while I was at work? Now I don't receive any calls. Indiana's law is working. Please do not do anything to lessen its effectiveness. You may contact me directly with any questions. I'd be happy to give you more information at your request.
